1 **Corporate information**

Wing Tai Holdings Limited (the “Company”) is incorporated and domiciled in Singapore and is listed on the Singapore Exchange Securities Trading Limited. These condensed financial statements as at and for the financial year and half year ended 30 June 2021 comprise the Company and its subsidiaries (collectively, the “Group”). The principal activity of the Company is that of an investment holding company. The principal activities of the Company’s subsidiary companies are investment holding, property investment and development and retailing of garments.

2 **Basis of preparation**

The condensed financial statements for the financial year and half year ended 30 June 2021 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s and the Company’s financial position and performance of the Group since the last interim financial statements for the half year ended 31 December 2020.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed financial statements are presented in Singapore dollar which is the Company’s functional currency.

2.1 **New and amended Standards adopted by the Group**

The Group has adopted the new or amended SFRS(I) and Interpretations of SFRS(I) (“INT SFRS(I)”), that are relevant to the Group for the annual period beginning on 1 July 2020 as follows:

- amendments to SFRS(I) 3 *Business Combinations* (Definition of a Business)
- amendments to SFRS(I) 9 *Financial Instruments*, SFRS(I) 1-39 *Financial Instruments: Recognition and Measurement* and SFRS(I) 7 *Financial Instruments: Disclosures* (Interest Rate Benchmark Reform)
- amendments to Conceptual Framework for Financial Reporting

Changes to the Group’s accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I)s and INT SFRS(I)s.

The adoption of the above new or amended SFRS(I)s and INT SFRS(I)s did not result in substantial changes to the Group’s accounting policies and did not have any significant impact on the financial statements of the Group for the current or prior financial years.

2.2 **Use of judgements and estimates**

The preparation of condensed financial statements in conformity with SFRS(I) requires management to exercise its judgement in the process of applying the Group’s accounting policies. It also requires the use of certain critical accounting estimates and assumptions. Although these estimates are based on management’s best knowledge of current events and actions, actual results may ultimately differ from those estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the financial year ended 30 June 2020.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial period are included in Note 11.1.

11.1 **Valuation**

The Group engages external, independent and qualified valuers to determine the fair values of the Group's investment properties based on the properties' highest and best use using the Direct Comparison Approach, the Capitalisation Approach and/or the Discounted Cash Flow Approach.

The Direct Comparison Approach involves the analysis of comparable sales of similar properties and adjusting the sale prices to that reflective of the properties. The Capitalisation Approach capitalises an income stream into a present value using revenue multipliers or single-year capitalisation rates. The Discounted Cash Flow Method involves discounting of future income stream over a period to arrive at a present value.

The management is of the view that the valuation methods and estimates are reflective of current market conditions and have taken into account the impact of Covid-19 pandemic and market uncertainty based on information available as at 30 June 2021. Certain valuation reports of the independent property valuers have included material valuation uncertainty clauses in their reports. Those clauses highlighted that less certainty and consequently a higher degree of caution should be attached to the valuations as a result of Covid-19 pandemic. This represents significant estimation uncertainty in relation to the valuation of investment properties.

For the financial year ended 30 June 2021, the Group recorded a total revenue of S\$461.4 million. This represents a 24% increase from the S\$371.0 million revenue recorded in the previous year. This increase is mainly due to the higher contribution from development properties. The current year revenue from development properties was largely attributable to the additional units sold in Le Nouvel Ardmore and the progressive sales recognized from The M at Middle Road in Singapore.

The Group recorded higher operating profit of S\$69.7 million in the current year as compared to S\$45.0 million in the previous year. This increase is mainly due to the higher contribution from the development properties.

The Group's share of profits of associated and joint venture companies increased to S\$36.3 million in the current year from S\$12.1 million in the previous year. This increase is primarily due to the higher contribution from The Garden Residences in Singapore on the additional units sold.

In the current year, the Group's net profit attributable to shareholders was S\$43.6 million as compared to S\$16.0 million in the previous year. Excluding the fair value changes on investment properties, the underlying net profit for the Group is S\$116.8 million in the current year, which is 68% higher than the S\$69.6 million recorded in the previous year.

3 **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

The current announced results are in line with the prospect statement previously disclosed to shareholders in the results announcement for the half year ended 31 December 2020.

4 **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months**

The Ministry of Trade and Industry reported in August 2021 that the Singapore economy expanded by 14.7 per cent on a year-on-year basis in the second quarter of 2021. This strong growth was mainly due to the low base in the same period last year which was impacted by the Covid-19 pandemic. The Singapore GDP growth forecast has been revised upwards to between 6% to 7% for the full year of 2021.

The URA's private residential property price index increased by 0.8% in the second quarter of 2021 as compared to the 3.3% increase in the previous quarter. The total number of new private residential units sold island-wide in the first half of 2021 was 6,459 units, as compared to 3,862 new units sold in the first half of 2020.

While the residential property market is likely to remain stable in the current year, the construction industry is facing rising costs due to manpower shortage and reduced productivity from the implementation of safe management measures at worksites. The Group will continue to exercise prudence in liquidity and capital management to ride through the uncertainties in the market.
