B Condensed Statements of Financial Position (continued)

Note:-

- (a) The decrease in the Group's current trade and other receivables is largely due to the repayment of loans by joint venture companies.
- (b) The decrease in the Group's development properties is primarily attributable to the recognition of capitalised development costs in the income statement.
- (c) The increase in the Group's other current assets is mainly due to the accrued receivables for The M at Middle Road.
- (d) The increase in the Group's other non-current assets is mainly due to the acquisition of financial assets at FVOCI.
- (e) The decrease in the Group's and the Company's non-current borrowings is largely due to the reclassification of medium term notes and bank loans which became current.
- (f) The increase in the Company's non-current trade and other receivables is primarily due to the advancement of loans to its subsidiary companies.

E **Notes to the Condensed Financial Statements**

1 **Corporate information**

Wing Tai Holdings Limited (the “Company”) is incorporated and domiciled in Singapore and is listed on the Singapore Exchange Securities Trading Limited. These condensed financial statements as at and for the financial year and half year ended 30 June 2022 comprise the Company and its subsidiary companies (collectively, the “Group”). The principal activity of the Company is that of an investment holding company. The principal activities of the Company’s subsidiary companies are investment holding, property investment and development and retailing of garments.

2 **Basis of preparation**

The condensed financial statements for the financial year and half year ended 30 June 2022 have been prepared in accordance with SFRS(I) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s and the Company’s financial position and performance of the Group since the last interim financial statements for the half year ended 31 December 2021.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with SFRS(I)s, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed financial statements are presented in Singapore dollar which is the Company’s functional currency.

2.1 **New and amended standards adopted by the Group**

The Group has adopted the new or amended SFRS(I)s and Interpretations of SFRS(I)s (“INT SFRS(I)s”), that are relevant to the Group for the annual period beginning on 1 July 2021 as follows:

- Amendments to SFRS(I) 9 *Financial Instruments*, SFRS(I) 1-39 *Financial Instruments: Recognition and Measurement*, SFRS(I) 7 *Financial Instruments: Disclosures* and SFRS(I) 16 *Leases: Interest Rate Benchmark Reform - Phase 2*

The adoption of the above amendments did not result in substantial changes to the Group’s accounting policies and did not have any significant impact on the condensed financial statements of the Group.

2.2 **Use of judgements and estimates**

The preparation of condensed financial statements in conformity with SFRS(I) requires management to exercise its judgement in the process of applying the Group’s accounting policies. It also requires the use of certain critical accounting estimates and assumptions. Although these estimates are based on management’s best knowledge of current events and actions, actual results may ultimately differ from those estimates.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at and for the financial year ended 30 June 2021.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial period are included in Note 11.1.

E **Notes to the Condensed Financial Statements** (continued)

3 **Seasonal operations**

The Group's businesses are affected by the economic outlook, financial market volatilities and changing property market conditions in the jurisdictions that the Group operates in.

4 **Segment and revenue information**

The Group is organised into the following main business segments - development properties, investment properties, retail and other operations comprising mainly investing, central management and administrative activities.

These operating segments are reported in a manner consistent with the internal reporting provided to management, who are responsible for allocating resources and assessing the performance of the operating segments.

11.1 **Valuation**

The Group engages external, independent and qualified valuers to determine the fair value of the Group's investment properties based on the properties' highest and best use using the Direct Comparison Approach, the Capitalisation Approach and/or the Discounted Cash Flow Approach.

The Direct Comparison Approach involves the analysis of comparable sales of similar properties and adjusting the sale prices to that reflective of the properties. The Capitalisation Approach capitalises an income stream into a present value using revenue multipliers or single-year capitalisation rates. The Discounted Cash Flow Approach involves discounting of future income stream over a period to arrive at a present value.

Management is of the view that the valuation methods and estimates are reflective of current market conditions and have taken into account the impact of COVID-19 pandemic and market uncertainty based on information available as at 30 June 2022. The valuation reports obtained from independent property valuers for certain investment properties have highlighted that, with the heightened uncertainty of the COVID-19 outbreak, a degree of caution should be attached to the valuations as they may be subjected to more fluctuation subsequent to 30 June 2022 than during normal market conditions. This represents significant estimation uncertainty in relation to the valuation of investment properties.

Valuation techniques and inputs

Location/type	Valuation techniques	Significant unobservable inputs	Range of significant unobservable inputs	Relationship of significant unobservable inputs to fair value
Singapore Commercial buildings	Direct Comparison Approach	Market value per square metre	\$20,668 - \$23,133 (2021: \$20,288 - \$22,716)	The higher the adjusted valuation, the higher the fair value.
	Capitalisation Approach	Estimated monthly rental rate per square metre	\$89 - \$95 (2021: \$88 - \$94)	The higher the estimated rental rate, the higher the fair value.
		Capitalisation rate	3.65% - 3.75% (2021: 3.75% - 3.85%)	The higher the capitalisation rate, the lower the fair value.
Serviced apartments	Capitalisation Approach	Estimated monthly rental rate per room	\$5,756 (2021: \$5,691)	The higher the estimated rental rate, the higher the fair value.
		Capitalisation rate	4 % (2021: 4%)	The higher the capitalisation rate, the lower the fair value.
	Discounted Cash Flow Approach	Discount rate	6.25% (2021: 6.25%)	The higher the discount rate, the lower the fair value.

15 **Subsequent events**

There are no known subsequent events which have led to adjustments to this set of condensed financial statements.

F **Other information**

1 **Review**

The condensed statements of financial position of Wing Tai Holdings Limited and its subsidiary companies as at 30 June 2022 and the related condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the financial year and half year then ended and certain explanatory notes have not been audited or reviewed.

2 **Review of performance of the group**

For the financial year ended 30 June 2022, the Group recorded a total revenue of S\$514.6 million. This represents a 12% increase from the S\$461.4 million revenue recorded in the previous year. This increase is mainly due to the higher contribution from development properties. The current year revenue from development properties was largely attributable to the progressive sales recognised from The M at Middle Road and the additional units sold in Le Nouvel Ardmore in Singapore.

The Group's share of profits of associated and joint venture companies increased to S\$112.2 million in the current year as compared to S\$36.3 million in the previous year. This increase is primarily due to the higher contributions from Wing Tai Properties Limited in Hong Kong as well as Uniqlo in Singapore and Malaysia.

In the current year, the Group's net profit attributable to shareholders was S\$140.2 million as compared to S\$43.6 million in the previous year. This increase is largely attributable to the higher contributions from the associated and joint venture companies.

The Group's net asset value per share as at 30 June 2022 was S\$4.32 as compared to S\$4.14 as at 30 June 2021. The Group's net gearing ratio was 0.02 times as at 30 June 2022.

3 **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

The current announced results are in line with the prospect statement previously disclosed to shareholders in the results announcement for the half year ended 31 December 2021.

4 **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next operating period and the next 12 months**

The Ministry of Trade and Industry reported on 11 August 2022 that the Singapore economy expanded by 4.4 per cent on a year-on-year basis in the second quarter of 2022. The Singapore GDP growth forecast has been narrowed to between 3% to 4% from 3% to 5% for the full year of 2022.

The URA's private residential property price index increased by 3.5% on a quarter-on-quarter basis in the second quarter of 2022, as compared to the 0.7% increase in the previous quarter. The total number of new private residential units sold island-wide in the first half of 2022 was 4,222 units, as compared to 6,459 new units sold in the first half of 2021.

In March 2022, the Group acquired the remaining 50% interest in the freehold office building at 464-466 St Kilda Road, Melbourne, Victoria from the joint venture partner for a total consideration of A\$49.4 million. With the completion of the acquisition, the Group now owns 100% of this property.

In May 2022, the Group entered into a contract for the collective purchase of the leasehold site known as "Lakeside Apartments" along Yuan Ching Road in Singapore, having an approximate site area of 12,465.4 square metres at the price of S\$273.9 million, subject to the approval of the Strata Title Board and the Land Dealings Approval Unit of Singapore Land Authority. The Group plans to redevelop the site as a residential property development for sale.

With the property cooling measures announced in December 2021, the rising interest rate environment, the heightened inflation as well as the geopolitical tensions, the Group expects these factors to have an impact on the buying sentiment for private residential property in Singapore. The Group will continue to monitor the market closely.
